

IN A VOLVO 740 TURBO ESTATE, PIGS CAN FLY.

Metaphorically speaking, of course.

Even with a 0-60 time of 7.7 seconds,* the Volvo 740 Turbo Estate doesn't actually leave the ground.

On the contrary, it hugs the road rather than hogs it.

A self-levelling suspension system keeps the car correctly balanced even with a full load in the back.

And when you fold down the rear seats, you open up

75 cubic feet of load space.

As you'd expect from Volvo, it's all fully-carpeted.

(Pig-breeders and dog-owners will be relieved to hear that we also offer a pre-formed plastic liner.)

Of course, you're more likely to be carrying kiddies than piggies.

Which is why the 740 Turbo Estate is equipped with 3

rear seat belts.

And why it has childproof locks on both rear doors and the tailgate.

And why it's built around a rigid steel safety cage with impact-absorbing crumple zones front and rear.

At Volvo, we do everything humanly possible to save your bacon.

To Volvo, Springfield House, Princess Street, Bristol BS3 4EF.
